

THE TRAVELERS COMPANIES

Equity research status | P&C operating model | NYSE: TRV

RESEARCH STATUS

Historical analysis only. No rating, price target or investment recommendation.

The model uses audited annual history through FY2025 with an information cutoff of 2026-02-12. A separately dated Canadian disposal bridge incorporates disclosures available by 2026-04-16; those later facts are not inserted into the February workbook forecast.

Six-year financial history

USD millions. Net P&C reserves are reserve-rollforward amounts; 2025 includes the disposal group before the January 2026 sale.

Fiscal year	GWP	NWP	NEP	Net P&C reserves	Net income
2020	31,763	29,732	29,044	46,357	2,697
2021	34,244	31,959	30,855	48,688	3,662
2022	37,876	35,414	33,763	50,853	2,842
2023	42,972	40,201	37,761	53,804	2,991
2024	46,550	43,356	41,941	56,419	4,999
2025	47,730	44,387	43,914	59,846	6,288

FY2025 gross written premiums were \$47,730m, net earned premiums \$43,914m and net income \$6,288m. The Travelers-specific calculated combined ratio was 89.9%.

What the historical model establishes

The 2019 opening net P&C claims reserve was \$43,801m. At FY2025, the audited balance sheet reported \$101,182m of investments and \$842m of cash. Premium, claims-reserve, income, balance-sheet, cash and equity controls are reconciled in the source-linked workbook; unresolved stock movements remain visible.

CANADIAN DISPOSAL

A dated bridge, not an assumed sale gain

Information available by February 12, 2026

The FY2025 Form 10-K classified \$4,550m of assets and \$2,542m of liabilities as held for sale, or \$2,008m of book net assets. The disclosed classes include \$3,243m of fixed maturities, \$285m of reinsurance recoverables, \$1,909m of gross claims reserves and \$514m of gross unearned premiums. The consolidated investments, cash and gross UPR balance-sheet lines already exclude these separately presented items.

Subsequent April 16, 2026 evidence

The Q1 2026 Form 10-Q reported \$1,627m of net claims reserves disposed and \$2,384m of cash proceeds. Applying the reserve disposal movement to FY2025 produces a \$58,219m continuing opening net P&C reserve basis. Comparing the December gross and Q1 net reserve measures implies \$282m of recoverables on unpaid claims; this split is inferred across dates.

FY2025 premium basis (USD m)	Reported consolidated	Divested	Comparable continuing
Net written	44,387	989	43,398
Net earned	43,914	1,035	42,879

Divested premium amounts come from the Travelers Q1 2026 webcast presentation, PDF page 19. Comparable continuing values are analytical comparisons, not restated GAAP actuals.

Cash proceeds less December book net assets is \$376m, but this is not the reported accounting gain. Closing adjustments, tax, transaction costs and foreign-currency translation remain to be reconciled.

MODEL OUTLOOK AND GATES

Illustrative operating cases only

2026-2030 scenarios retain the FY2025 business perimeter and exclude the Canadian sale.

2030 illustrative case	Net earned premiums	Net P&C reserves	Combined ratio
Base	53,030	79,258	90.1%
Upside	61,033	81,010	82.5%
Downside	45,428	79,329	102.2%

Valuation and research status

No share-price input, calibrated catastrophe distribution, integrated forecast three statements, capital constraint or reconciled transaction gain is in this run. The report therefore makes no valuation, price target or investment recommendation. The current operating cases cannot be treated as a Travelers-specific post-disposal forecast.

Validation and provenance

The release build passed 207 historical controls, 7 February disposal checks and 10 later disposal checks. 6 premium-earning bridges remain open. The workbook also compares 135 forecast cell values with the Python operating projection across three cases.

HISTORICAL SOURCE MAP

Direct source pages for the six-year table

The historical table on page 1 combines comparative figures from several annual reports. Each linked page below identifies the source used for that year and metric. GWP is derived from the direct and assumed written premium rows on the cited page.

The 2019 row supports the opening net P&C reserve only. Premium source applies to GWP, NWP and NEP.

Fiscal year	Premiums	Net P&C reserves	Net income
2019	-	FY2019 report, p.180	-
2020	FY2022 report, p.179	FY2021 report, p.182	FY2022 report, p.145
2021	FY2022 report, p.179	FY2021 report, p.182	FY2022 report, p.145
2022	FY2022 report, p.179	FY2023 report, p.181	FY2022 report, p.145
2023	FY2025 report, p.193	FY2023 report, p.181	FY2025 report, p.157
2024	FY2025 report, p.193	FY2025 report, p.195	FY2025 report, p.157
2025	FY2025 report, p.193	FY2025 report, p.195	FY2025 report, p.157
